Applicant has amended claims 1, 4, 9 10, 12, 14, 16-18, 20, 23, 28, 29, 31, 35,
 and 37 in the amendment filed on 3/10/2005. Claims 1-38 are pending in this Office Action.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian P. Klein, Registration No. 44,837 on 4/12/2005.

In the claim: Please replace claims 16 and 35 with amended claim 16 and claim 35 and cancel claims 1-15 and 20-34.

16. (currently amended) A computer implemented a method of operation on one or more data processing machines, the method comprising:

determining whether a first document collection comprises at least one document linked to at least one other document of at least one other second document collection;

determining a collection rating according to a rating scale for each of said at least one other second document collection if said first document collection is determined to comprise at least one document linked to at least one other document of at least one other second document collection, said collection rating according to the rating scale for

each of said at least one other second document collection relating to a desirability of a content of said at least one other second document collection;

determining whether said first document collection comprises at least one document being linked by at least one other document of at least one other third document collection:

determining a collection rating according to said rating scale for each of said at least one other third document collection if said first document collection is determined to comprise at least one document linked by at least one other third document collection, said collection rating according to the rating scale for each of said at least one other third document collection rating to a desirability of a content of said at least one other third document collection; and

determining a link rating according to said rating scale for said first document collection based on either said determined collection rating or ratings according to said rating for said at least one other second document collection, or said determined collection rating or ratings according to said rating scale for said at least one other third document collection, or both, depending on whether collection rating or ratings are determined according to said rating scale for said at least one other second document collection, said at least one other third document collection or both.

 (currently amended) A computer implemented an apparatus comprising: storage medium having stored therein a plurality of programming instructions designed to enable said apparatus to determine whether a first document collection other document of at least one other second document collection,

at least one processor coupled to the storage medium to execute the programming instructions.

Allowable Subject Matter

3 Claims 16-19 and 35-38 are allowed.

The prior art of record, alone or in combination, does not teach or fairly suggest the combination of steps as recited in independent claims 16 and 35 wherein "determining a collection rating according to a rating scale for each of said at least one other second document collection if said first document collection is determined to comprise at least one document linked to at least one other document of at least one other second document collection, said collection rating according to the rating scale for each of said at least one other second document collection relating to a desirability of a content of said at least one other second document, determine a collection rating according to said rating scale for each of said at least one other third document collection if said first document collection is determined to comprise at least one document linked by at least one other third document collection, said collection rating according to the rating scale for each of said at least one other third document collection relating to a desirability of a content of said at least one other third document collection".

The dependent claims, bring definite, further limiting, and fully enabled by the specification are also allowed.
